Randy Torgerson

United States Association of Professional Investigators - Investigators in the News

Dear Randy,

Below is an update on the Caylee Marie Anthony case for publication should you approve.

Update: Caylee Marie Anthony, 3 years old and missing since June 16, 2008:

Casey Marie Anthony was indicted on first degree murder charges on October 14, 2008 in connection with her daughter's disappearance. D&A Investigations, Inc. has been investigating the circumstances surrounding Caylee Marie Anthony's disappearance and possible location since July 25, 2008.

The Grand Jury's indictment is based on circumstantial evidence presented by the State Attorney's office. Caylee Marie has yet to be located. At the request of the Family, D&A Investigations, Inc. will continue the search for Caylee Marie until she is located and returned to Her Family. Our investigation has crossed many States and we are proud to have to have become partners with another USAPI Member "Covert Intelligence LLC" of Puerto Rico. Fernando Fernández and his Team have become an integral part of this investigation, in both Puerto Rico and the United States.

This partnership has enabled both Agencies to combine the crucial assets necessary for a Missing and/or Abducted Child investigation and promoted more efficient response time.

National media attention of this case continues and for the most part is a blessing because it keeps the attention on Caylee Marie and the many other missing and exploited children that must be found and returned to their Families.

As of the writing of this article D&A Investigations, Inc. & Covert Intelligence LLC is continuing our work on the case as it is still ongoing.

Kindest regards,

D&A Investigations, Inc.

Dominic A. Casey
